

Activity 01: Leadership Behaviour Snapshot

Leadership Masterclass · C904 · v4.0 · Fictional practice material

Goal

In this activity, you will observe impact and select one improvement using a fictional Meridian Services situation. You will discuss different perspectives, practise a leadership response and produce a reusable work artifact. The exercise connects the topic concepts to an everyday team decision, and the debrief focuses on how your response affects other people.

What you will build

A completed leadership behaviour snapshot worksheet, a peer observation checklist and a practical next action.

Fictional scenario

A team lead interrupts colleagues and later discovers that a critical constraint was never discussed. Three team members describe different experiences of the same meeting.

Preparation

Read the scenario. Open [worksheet.docx](#) or print [worksheet.pdf](#). Work in pairs or triads. Use [sample-completed-worksheet.pdf](#) after making your own first attempt.

Step 1

List three observed behaviours from the scenario, keeping fact and interpretation separate.

Step 2

Identify a strength and one behaviour whose impact differs from the leader's intention.

Step 3

Choose an alternative response and explain which need it addresses.

Step 4

Rehearse the alternative in pairs and ask for one specific observation.

Step 5

Complete a seven-day practice commitment and name a feedback partner.

Test it

Check each item in checklist.md, then ask a peer to identify one clear strength and one concrete improvement. Confirm that your proposed action has an owner and a review point.

Debrief

What evidence changed your view? Which trade-off remains? Which behaviour will you practise next?
