

# Activity 03: Active Listening Triads

Leadership Masterclass · C904 · v4.0 · Fictional practice material

## Goal

In this activity, you will check meaning before solving using a fictional Meridian Services situation. You will discuss different perspectives, practise a leadership response and produce a reusable work artifact. The exercise connects the topic concepts to an everyday team decision, and the debrief focuses on how your response affects other people.

## What you will build

A completed active listening triads worksheet, a peer observation checklist and a practical next action.

## Fictional scenario

Delivery says that sales promises dates before checking capacity. Sales says delivery does not reply quickly enough. Each team believes the other ignores customers.

## Preparation

Read the scenario. Open [worksheet.docx](#) or print [worksheet.pdf](#). Work in pairs or triads. Use [sample-completed-worksheet.pdf](#) after making your own first attempt.

## Step 1

Allocate speaker, listener and observer roles and read the scenario independently.

## Step 2

Let the speaker explain the concern for two minutes without interruption.

## Step 3

Ask two open questions and paraphrase the need without assigning blame.

## Step 4

Invite correction; write the revised shared understanding in the worksheet.

## Step 5

Rotate roles and use the checklist to identify one behaviour to keep and one to improve.

## Test it

Check each item in [checklist.md](#), then ask a peer to identify one clear strength and one concrete improvement. Confirm that your proposed action has an owner and a review point.

## **Debrief**

What evidence changed your view? Which trade-off remains? Which behaviour will you practise next?
