

Activity 06: Ethical Decision and Premortem

Leadership Masterclass · C904 · v4.0 · Fictional practice material

Goal

In this activity, you will check consequences and failure routes using a fictional Meridian Services situation. You will discuss different perspectives, practise a leadership response and produce a reusable work artifact. The exercise connects the topic concepts to an everyday team decision, and the debrief focuses on how your response affects other people.

What you will build

A completed ethical decision and premortem worksheet, a peer observation checklist and a practical next action.

Fictional scenario

A manager proposes sharing full customer records with a temporary team to accelerate delivery. Some fields are unnecessary for the handover. The deadline is tomorrow.

Preparation

Read the scenario. Open [worksheet.docx](#) or print [worksheet.pdf](#). Work in pairs or triads. Use [sample-completed-worksheet.pdf](#) after making your own first attempt.

Step 1

List affected groups and distinguish a desired benefit from possible harm.

Step 2

Identify policy constraints and write UNKNOWN for permissions you cannot establish.

Step 3

Generate three options, including reducing the shared fields or changing timing.

Step 4

Imagine the chosen option failed after one week; list three plausible causes and mitigations.

Step 5

Document a recommendation, approval route and stop condition; explain it to a peer.

Test it

Check each item in checklist.md, then ask a peer to identify one clear strength and one concrete improvement. Confirm that your proposed action has an owner and a review point.

Debrief

What evidence changed your view? Which trade-off remains? Which behaviour will you practise next?
