

Activity 12: 30-Day Leadership Development Plan

Leadership Masterclass · C904 · v4.0 · Fictional practice material

Goal

In this activity, you will convert learning into a measurable habit using a fictional Meridian Services situation. You will discuss different perspectives, practise a leadership response and produce a reusable work artifact. The exercise connects the topic concepts to an everyday team decision, and the debrief focuses on how your response affects other people.

What you will build

A completed 30-day leadership development plan worksheet, a peer observation checklist and a practical next action.

Fictional scenario

The team lead wants to improve cross-team decisions. Colleagues say meeting summaries are unclear and disagreements are often reopened.

Preparation

Read the scenario. Open [worksheet.docx](#) or print [worksheet.pdf](#). Work in pairs or triads. Use [sample-completed-worksheet.pdf](#) after making your own first attempt.

Step 1

Select one observable behaviour linked to a course learning outcome.

Step 2

Choose a real practice opportunity and a feedback partner who experiences the behaviour.

Step 3

Write an if–then plan for the trigger most likely to disrupt the habit.

Step 4

Define evidence, a baseline if available, and reviews on days 7, 14 and 30.

Step 5

Explain the plan to a partner, revise vague wording and keep a copy for workplace use.

Test it

Check each item in checklist.md, then ask a peer to identify one clear strength and one concrete improvement. Confirm that your proposed action has an owner and a review point.

Debrief

What evidence changed your view? Which trade-off remains? Which behaviour will you practise next?
