Use the six-topic sequence in the deck and Learner Guide. Each pair of activities has 70 minutes: 35 minutes per activity. The later integrated-practice and recap blocks provide additional rehearsal, peer feedback and application time. Use the three framework sections, the worked example and the recap in each topic as the core live teaching route. Choose no more than five relevant original concept-library slides per topic to explain learner questions; the rest provide optional reference depth for reading. In the 35–40 minute concept block, allow 20 minutes for the frameworks and worked example, 10–15 minutes for selected library slides and 5 minutes for questions. Do not present every library slide in sequence.
